

Planning for Health Care Coverage

Medical costs are expensive. Whether you are in your 50s, 60s, 70s, or older, now is the time to review how you cover them. Now is the time, too, to plan for how they will be paid for in the future. Without health insurance, some persons could lose all their assets if they had to pay for medical expenses.

Health care costs are rising faster than the rate of inflation.

Like life insurance, health insurance can be hard to understand. Don't let it baffle you, though. Find out what you need to know to protect yourself and your assets. Don't find out you have too little coverage when it's too late. Use the "Health Insurance Checklist" at www.HealthyLearn.com to keep track of your health care coverage.
